3. Outofstock EC request ExcelQ&A on Teams

Investigation

- Is it possible to output in Excel besides any fee? → Yes

- If we keep do it as a CSV output, Is it possible to judge a record once outputed or not? → Can do
e.g) EC HQ will output "Outofstock EC request" CSV and then they will order to a manufacturer but if the delivery from the manufacturer is delayed, the order will keep output into "Outofstock EC request" CSV so needs to be realised when the orders were outputed first date.

- Add "EC依頼リスト_伊勢崎拠点" and "EC依頼リスト_宗像拠点"
- As mentioned before there are two EC head quarters(Munakata and Isesaki), and MrMax would like to output Excel file separately.
- Please use the following values to determine and output accordingly.

The output results will be sorted each terms and then output to separate sheets.

Order No 注文番号	Shop Name 店舗名 ↓ dtb_order.uketori_location_cd	genre_cd 分類コード	genre_kanji 分類名	JAN code 商品CD	Product Name 商品名	lack_count EC依頼数 ↓ Phase2 req_1	closing_time 締日時 ↓ Output which timing the order has closed. 8:30 or 12:30 YYYY/mm/DD HH:MM	output_datetime 出力済み

Refer:
【注文番号別】 Sheet_1: Sort by Order No ASC
【商品別】 Sheet_2: Sort by JAN code ASC
